

Proposed Urban Grant Application Instruction Updates 2023 Grant Cycle

All

- Reformatted all application instructions using the same template as the Surface Water Grants.
- Minor corrections
- Added ability to submit grant applications through a file transport system (FTP site)

UNPS Construction:

- Added filter question
 - This project site is not specifically listed in an approved Adaptive Management Plan under s. NR 217.18, Wis. Adm. Code, or a water quality trading plan pursuant to s. 283.84, Wis. Stats., AND the resulting reductions will not be credited towards the achievement of any WPDES requirement or performance goal except for a municipal storm water permittee, permitted under subchapter I of NR 216, Wis. Adm. Code, completing an activity to comply with their municipal storm water permit.
- Added alternative funding check box option
 - Check this box if the applicant requests that the DNR also submit a copy of this application to the upcoming Sewer Overflow & Stormwater Reuse Municipal Grant (OSG) Program.
- Removed the wetland checkbox in Part II C because we ask a similar question in the eligibility filters.
- Updated and clarified the Eligibility for Local Enforcement Multiplier.
 - If the applicant is a permitted MS4, they will automatically receive the points for a multiplier
 - If the applicant is a non-permitted MS4, they will need to provide documentation to receive points for the multiplier.
